

Cat® Drive Train Rebuild Kits

WHY SHOULD I CONSIDER A CAT® DRIVE TRAIN REBUILD KIT?

Get more for your money.

Cat Drive Train Rebuild Kits contain everything you need for a cost-effective rebuild solution that allows you to fully capture the multiple lives designed into your Cat Drive Train.

Count on quality.

Genuine Cat Drive Train components are manufactured to precise specifications and engineered for a reliable rebuild.

The right parts for your machine.

A Cat Drive Train Rebuild Kit provides you with all genuine Cat parts recommended for replacement at every rebuild.

Save time and effort.

Cat Drive Train Rebuild Kits eliminate the hassle of ordering multiple parts through the use of one part number. This simplifies ordering and handling, shortens turnaround time and reduces the chance of forgotten parts.

Cat® Drive Train Rebuild Kits

BEARING KITS

All bearings, seals, gaskets, thrust washers and shims needed for a complete component rebuild.

- Differential
- Planetary Axle
- Final Drive (with Cat Duo Cone™ seals)

- Transmission*
 - Torque Converter*
- *Seals and gaskets not included

GASKET KITS

All seals and gaskets needed for a complete component rebuild. When combined with the corresponding bearing kit, provides all of the replacement parts for a rebearing/reseal.

- Transmission
- Torque Converter

BRAKE KITS

Wet disc kits contain all friction discs, seals and shims needed for component rebuild. Dependent on machine, extended life friction discs may be included. Kits containing reaction plates are also available if desired.

Dry caliper kits contain all seals needed to rebuild the caliper assembly.
